SUMMARY

Experienced Frontend Developer with over 2 years of experience in React.js. Now, I'm curious about the magic happening behind the scenes in backend development. I have a knack for creating user-friendly interfaces and I'm excited to dive into full-stack projects. I love learning new things quickly and solving challenges. Ready to broaden my skills and contribute to the entire web development journey.

EXPERIENCE

E-Medical Software Ltd.

Front End Developer

November 2022 – present  Road No: 1, Shyamoli, Dhaka.

- Developing multiple complex UI systems in ERP projects. With a focus on complexity, I engineer solutions that seamlessly integrate into the ERP environment, enhancing user experiences.
- Collaborated with a team, gaining valuable teamwork experience.

Strativ.

Junior Software Engineer

April 2022 – October 2022  Mirpur DOHS, Dhaka.

- Developed high-performance, Multilanguage web applications, including a Lab System application, Booking System, and various feature enhancements in the vaccination system. Utilized React.JS, React Router, Zustand, React Query, Ant Design, and Styled Components.
- Created web frontends for medical operations, aligning with client requirements and business architecture, while also ensuring the maintenance of current requirements in existing projects.
- Collaborated with different development and QA teams to code HTML/CSS mock-ups, test, and validate projects throughout the development process.

Kendrik Studio.

Web Developer Intern

January 2022 – March 2022  Gulsan-2, Dhaka.

- Assisted the development team and maintaining 3 websites.
